This is a city that was destroyed during a war.
This city is an interesting place to research but extremely dangerous We get casualties almost every time we do our job in here

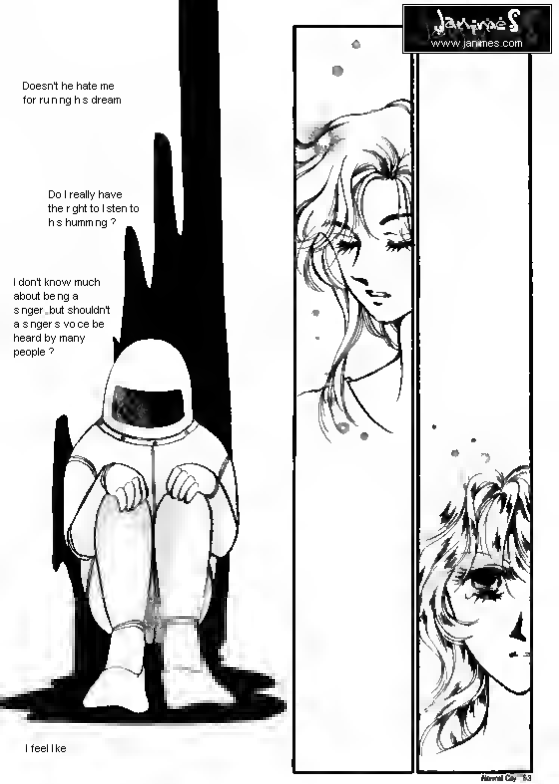
Through the speaker
I can hear Isha breathing
It's humming
Ah
It's Make up face
Doesn't he know
I can listen ?
Yes
Isha was a singer
It is only obvious that
he enjoys singing
Of course,
he wants to
sing

Jan-mes
www.janimes.com



Doesn't he hate me for running his dream
Do I really have the right to listen to his humming ?
I don't know much about being a singer..but shouldn't a singer's voice be heard by many people ?
I feel like

Even so
what should I do
Such happ ness
S on
am I allowed to
feel I ke th s ?

So, was it fun to be a leader Kit
You haven't accomplished anything though.
Why aren't you killing us ?
I can kill you anytime I want. So, that is not a problem.
you sound very rude to your owner, Kit. Though I did not expect you to beg.

You are not my owner
My owner can only be me
And you couldn't say that before
Yes, all you said before was "Yes yes"
Now that your death is certain You say your owner is yourself
I am not interested in who own you
I am not interested in those cowards who can only say what and how they feel near end of their life

I am letting you live for now because you have a purpose.
The chess has begun already.
And you two are the first horses that will be sacrificed
Don't worry though. I will let your bodies rest next to Paet and Hacker.
And that will be my last favor for you.

She barely says anything

I know
How I act will probably look like I am acting

I do feel like I am acting

It s not like I expected the friendship I had with her

But for some reason I think she has gotten colder

She doesn't like how I look
Jean doesn't

Let s forget about your hopeless curly hair I will just pin it to a side
Just get it done Jean
It s almost done
If he was going to send dresses he should have sent a hair dresser as well

Janimes
www.janimes.com

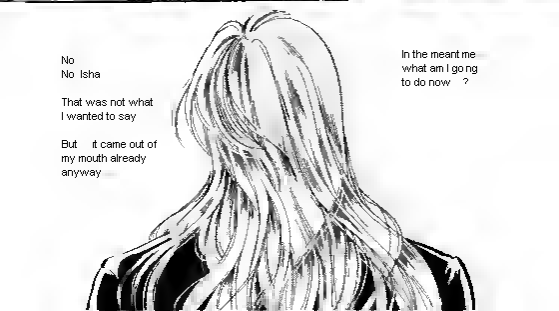
Mars likes Isha Green?
Ha . .
With her personality?
So, that is how it is...



No
No Isha
That was not what I wanted to say
But it came out of my mouth already anyway
In the meant me what am I go ng to do now ?

I've changed....
I can't believe this ...
I am more worried about Isha finding out truth than what Troll is planning.
I am a produced creature
That was what I thought and I accepted so
But right now, I can't ...
Get a hold of yourself Mars
Th s s not l ke you
I am greatly bothered by someth ng
Isha Green th s s my f rst t me see ng you n person
You do have beaut ful apperance
That doesn't sound l ke a compl ment
So, you don't l ke to be comp mented l ke that You are just l ke my brother
Huhu, anyway you are Kitty 101 s teammate? I guess fate knows where to go

Sure
You w ll let us

a moment won't
you ?
Sure
But make
it short

What are you trying to do, Kane ?
Do you really think I will be quiet ?
Why did you even bother to bring me here when you know how I feel about Dr Troll ?
What are you going to do if I can't stay quiet and cause troubles?
You won't.
How can you be sure ?
If you were going to you wouldn't have wanted to talk to me in private
That's why I didn't tell you about this
Jaminés
www.jaimes.com

Are you that afra d of reveal ng the truth to Isha ?
Isha ...? He doesn't knoe yet..
I don't want him to know ... but it's not like I am afraid about that.
You are not being honest, Mars.
You used to speak how you feel directly.
I knew that he knew well about me ...
But he even knows how I feel ?
Anyway, do what I told you. I do also think this is very dangerous.
But Troll promised.

He prom sed that f you come here and greet h m and go through th s party wthout casu ng a trouble he won't quest on our management ab lty of you

We haven't seen each other since the fight
I must say that's one late thank you
You think so?
Anyway... thanks for before
Looks like you've been doing well
You haven't been doing well?
Nope
That's why I am so happy
I knew he was weird
But today, I feel he's even weirder
This is one f@#ed party

For you guests I've prepared spec al meal
I hope you enjoy
Especially you, Kitty 101, you should eat good.
Your body is the ultimate experiment. Take care of your own body well.
Yes
Doctor
What the... Who does he think he is ?
And it is weird that Mars is so quiet.
but I can't speak up

Ths s too qu et
for a party
No good hmm
no good
There s
entertainment
I've prepared
I was going to show
you after party
But it seems ths s
the time now
Yes
Missel

All of you here are famlar wth fghts between espers
But todays fght s very spec al
nce graph c
Kit ?!
Kira ?!
Ths s a very nterest ng scenar o
Ther cr me s betrayal
They ve betrayed ther r own fr ends and owner
Those two w ll be killed by the r fellow

And who will execute them are those who were killed by their betrayal
Those are clones
Medusa
that I killed before
Clones ? Then Sion's a clone, too?
But Sion didn't have clone license.
Now the execution shall begin.

Jaxines
www.jaxines.com

Is that ... going on right now?
Huhu I wonder
Is there a problem, Mars ?
No..., Kane.

I don't think such entertainment is proper for a party.
Don't you think so, Dr. Troll
Do you have to show us that?
You are in my house Kane
As long as you are in my house, you must follow my rules
This is a very interesting scenario. So let's share
They were like a family. They cared for each other and looked after each other. Now, they must decide.
How would they feel right now? And how would those clones feel right now?
This is the perfect example of irony. Not to mention interesting.
What do you think, Kitty 101
What are you going to do if your friend who you thought dead would come back and try to kill you

What ...
What kind of party is this ...
Jean, you must get a hold of yourself ...
You must ... if you mustn't...
What about ... What about Mars ...
I will defend myself.
After all, clones are not humans.

Hmm ,, is that so . .
What is up with that perverted scientist?
Is he really going to execute Kit and Kira in front of all these people ?
Jean ?
Send a s gn to Paet and Hacker
Yes

www.jaimes.com

Stop !
What do you think you are doing ?!
You call this a party ?!
Are you expecting us to sit back and enjoy what everyone would say murder ?!
Why aren't you doing anything, Kane ?!
Sit down, Isha.
The administration has no influence here
Even though it does look like murder scene, we are not even sure it is real or not.
Such a scene could easily be generated by a computer.
Isha Green ...
That's cute.

Are you suggesting we just watch that happen ?!
A fight ?! You call that a fight ?! They are not even fighting back !
It is a fight between espers
That is their problem
You may help them -f you want
But I
Only Kitty 101 may help them No one else s allowed

She will not do anything Isn't that right Mars Heaven
Yes Kane

Janimes
www.janimes.com
Yes... there is no reason for me to act like a hero now ...
I've killed countless people. I will just add them to the list ...
Even if Troll is merely trying to provoke me, it is their luck whether they survive or not.
Yes... this is me Isha
I even said that I didn't care when Kit talked to me.
I must look after Jean and father rather than their life ...
I am going to look for them.
You've come here as a guest. Act like one, Isha Green.
Sit down, Isha !

The screen is gone ... What happened to them ?
Is that really happening right now ?!
Or are you just fooling us around?!
Well, I wonder ...
Whether they survived or not ... who knows.
Anyway, that is our problem.
Now, let's continue the party.

Hmm , the scent of th s wne s nce
He expects us to eat after that? That's one crazed \@#%ed bastard.
What is he trying to pull ?
He acts like he is Nero. He was treating the espers like his slaves.
Is this his reason to invite us over ? Just to show off? And Mars is acting weird as well ...

He is crazy !
That bastard
is a nutcase !
After the meal
I will give you
a tour around
the facility
Take some
rest We will
meet again
at night
What is this
party really for?!
All he said was
some weird stuff
and showing

Why did you even bring

Janimes
www.janimes.com

A real party is continued overnight
Highlight of a party is night ...
Kane ... you don't know how to enjoy a party
Rooms? Sleeping over is not a part of the deal
At night, sometimes what is locked inside one opens
When one begins to release what had been locked inside of them a whole new world is unfolded
That is the charm of night
What had been locked inside?
In another word he is just going to keep provoking Mars until she cracks
I will be expecting

And Kitty 101
Dr. Troll has given you a new dress.
He didn't like that dress.
Wait, why are you bossing around saying he didn't like this and that ?!
Such is our business ! Is there like dress regulation here ?!
Kitty knows
Yes ... 'S the new dress another doll's dress aga n ?

Hey, what has gotten into you ? This is not like you.
What is going on here ?!
It s none of your bus ness
No..no..It could be h s bus ness
What?
You don't know ?
Missel
Ms Lyber!

During creation of
Kitty 101's DNA,
Isha Green's DNA was used
as well.

What ?
What do you mean?
DNA ?
I've had dreams
A person who had been growing as I grew in only dreams ... back on Mars
I've always seen him in my dreams
And at some point ...

I began to long for him ...
I promised to myself tha I would look for him one day
I didn't know why I just wanted to see him in real so that I could figu out why.

Janimes

I met him and
I longed for him.
It wasn't

Was it that

What is going on ?! Say something, Kane !
I don't know what the l@#% has been going on ever since we came here !
DNA ? Clones ? So-called a fight between espers ?!
Your brightness and pureness, that is what I like about you, Isha.
When I found you in the centre, you were very unfriendly and cranky, but I could see that you were pure.
I do not like to see you get hurt
What are you saying ? Are you saying I am weak ?

Mars s not someone you should have your eyes on
Although I used h m as a bait to keep Mars from leav ng and restr ct her aggress veness
Although it could be too early to say th s but you shouldn't be more than a fr end to her
What are you saying ?! Who... Who ...

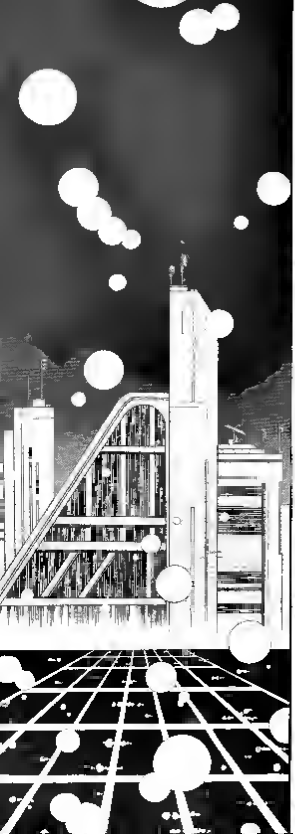
www.jaimes.com



Aren't you going to change ?
Ah

Get a hold of yourself ! What are you doing ?
What happened to you after that DNA stuff ?!

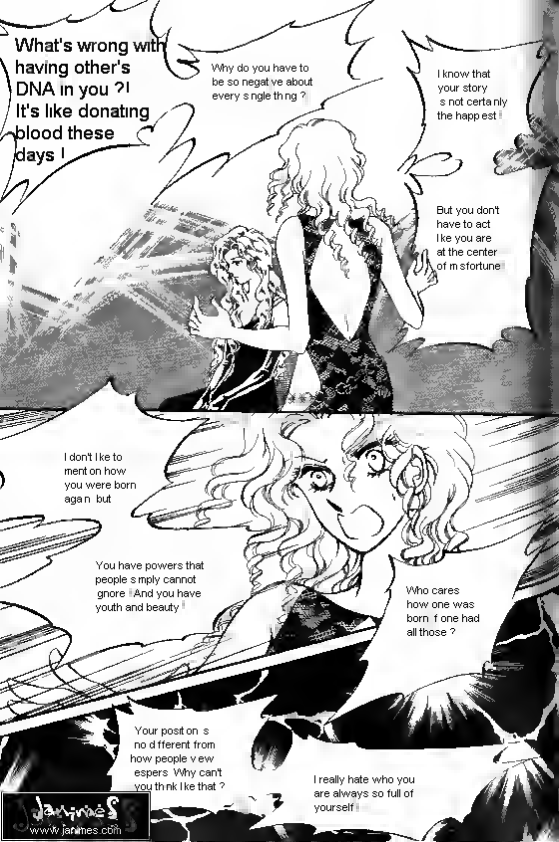
Jean you heard about t r ght? Experiments I am one of those
Isha s DNA s n my flesh
Don't be stupid !
Does that mean he s like my father ?



What's wrong with having other's DNA in you ?! It's like donating blood these days !
Why do you have to be so negative about every single thing ?
I know that your story is not certainly the happiest !
But you don't have to act like you are at the center of misfortune !
I don't like to mention how you were born again but
You have powers that people simply cannot ignore ! And you have youth and beauty !
Who cares how one was born if one had all those ?
Your position is no different from how people view espers. Why can't you think like that ?
I really hate who you are always so full of yourself !

I will not let her die So, don't worry Kane
Do you have a reason to kill Mars Dr Troll ?
You never know creator's mind Kane
Even if I do want to kill her I will not let her die like this
Don't you agree ?

It is not possible
to take Mars from him by logical means
This is something very personal
That wasn't certainly good event
The party is cancelled Just spend night in your room
Can't we see ... Mars?
The surgery was successful.
We will have to wait until her arm is healed.
Now excuse me.

www.janimes.com

Are you going to your room, Isha ?
Yeah
I have something to do
I need to find something Can you help ?
Find something ?
I can't tell you right now
You see, we are being monitored. I am going to my room and going to pretend taking a shower. I am going to teleport
If something happens... could you help me ?
sure
And just in case...
Just in case something happens to me

In case I became unavailable to tell Mars Would you tell this to her for me ?
What do you mean
just in case
It probably won't happen
Tell her that a corpse is only a corpse

Venus ...
What are you thinking ...?
Do you want some fresh air ?
You said you thank Dr Troll Amen Shita
I only feel this place is like a tomb.
I've been feeling that way ever since I came here

Did you know? When Dr. Troll told me that I am Kitty 101's biological partner ...
I swore to myself that I wouldn't follow a man-made fate.
I would play with her just for spite
While enjoying biological pleasure
I expected difference from another women out there difference from all the people
And when
When I saw Mai's, what I felt was
How should I explain
And at the same time I thought that
If I did meet this Kitty 101

It was very nteresting senst on
Don't explain
Stop
It was as if wherever she was to me she was a symbol of l feforce as well as a s gn
Interest ng pa n I never bel eved in pa n
Stop !

You are so cruel
Venus s so cruel
Snce when be ng honest s cruel ?
What has gotten nto you ?
So cruel
You are always cruel even when you speak warmly

Jaimes
www.jaimes.com

Better feel sad now than be crashed later
Why
Why are you so
Are you imply ng you do love Kitty 101 ?
Love ?
I do not know such a word

Jaimes
www.jaimes.com

But what I've been feeling could be what is called "love".
Not feeling never lasts forever.
But, if this is indeed what you call "love",
When you are under possession of love, there will be no lane, Amen Shita.
There will be only one way road. Don't expect that from me, Amen Shita.

Cutt ng your own arm What were you th nk ng
I d d not g ve you the powers for such usage
You already have powers to be a God Why are you so unstable
How could you am your own powers on yourself?
You never feared me and you were arrogant
And you cut your own arm just because a close fr end of yours crit c zed you
What s with her nstablity
When she s l ke th s I f I show her S on now

Dr. Johns,
What is it, Jason
Dr. Johns, how will she think of herself when she grows up ?
Jason you always seem to be confused
We are sc ent sts We have to see everyth ng from sc ent f c manner
Let psycholog st take care of psychology

Life span of experiment babies are too short to consider their future One of reasons for their short life span is the injections we give them though
But this best for her not to realize and have emotions and feelings like clones for her sake
Of course, this experiment Kitty is very special So I am paying more attention than other experiments
Producing and cloning human beings is illegal and you know it
You also know that people do not see clones and such as human beings
I do wonder how she will do when she grows up
If I say so am I being weird ?
No, you are not being weird But I do think that your recent incident is effecting you on this matter
I am really sorry that you've lost your family
To us she is no more than an object We just do what we do
But I want you to be a scientist and think like one

Do you really see her as only an object ?
Yes.
...What is this experiment really for ?
Seeing result of combining the best gene out there.
Seeing how far a being could advance by tempering with its DNA.
I want conversation as scientists, Jason.
Don't try to talk me into moral issues.
Will this child die soon as well?
www.jaimes.com

Who knows.
But she may be terminated before her life span if she is found dangerous.
You do know that espers with instable mind is being terminated.
Espers will be watched closer and closer. Kitty won't be an exception.
Of course, it is not certain that how powerful of an esper she will be right now.
But I do expect a little from this version of Kitty ...
From what we know, She will be beautiful and smart.
She will be a fine woman except for a fact of being turned into a male on regular basis.
Don't you think she should thank me if she manages to grow up? Haha . . .
www.janimes.com

I do expect a little
Do you really th nk it was a little ?
I wasn't joking at that time. Kitty 101
After that Jason took you away, protestors who were against the project caused troubles at the facility ..
I was really unlucky and the incident paralysed my whole body
This face ..... Do you have any idea how many facial surgeries I have gone through ? It wasn't only my face. It was my whole body.
No, I was lucky to survive the incident.
More surgeries .. and increasing discomfort of my body's inability ...

Yes and when you entered my dream and
Saw my complex
Everything about you was created by my own hands
The more pain I went though ,the more I thought about you
Your shining blond hair ... Your iris size and color ...
Your body shape and figure ...
.....

Just I ke how she looked I ke when I saw her as a 19 year-old man

I never even bothered to talk to her

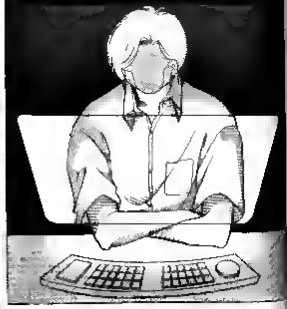
I only found myself look ng at her even wthout real z ng. My eyes were on her wherever she went

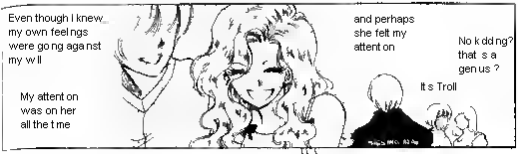
I didn't bother to approach her because i knew.

I knew that her beauty was caused by my own feelings toward her. It was a fantasy.

I had known better than anyone that how dirty people could get ever since I was a child.

I knew that she was no different from others.





Even though I knew my own feelings were going against my will
My attention was on her all the time
and perhaps she felt my attention on
No kidding? that's a genius?
It's Troll

And from my point as just an observer
Excuse me

I could see that she was doing her task as a female.

My will told me to get my eyes off her. But my eyes wouldn't move. It was men's eyes. My eyes ...
Why are you laughing?
Normal City

Her scoff was our introduction

I was not sure whether she knew my feelings or not, but she seemed she was intentionally hanging around near wherever I went

I knew she was scoffing at me But why couldn't I take my eyes off her...

People define things by its appearance. People are weak against emotions. People are weak against overwhelming powers.

I will not be one of them !

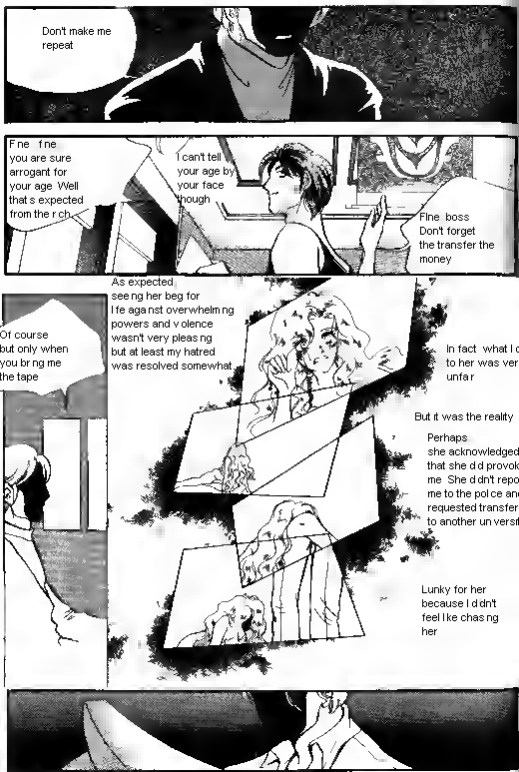
She is not scoffing at me because I am ugly. She is scoffing at me because she is proud of her beauty

My hatred was not because she disgarded me. It was because how I valued and defined myself

Even if the world flips and she loves me, it does not change the fact that I am still what and who I am.

I knew that.

And I also knew that that eyes of her ... will remain in my eyes forever.
Therefore I did not want to run my feelings anymore because of her presence
Oh~, this is a cutie
Yes, sure. I will do it since the payment is huge. But why do you do this?
One sided love perhaps?
I don't have to answer your questions
If you ask me one more question I am going to find another esper
Fine
But are you really sure to reveal your name at the end?



Don't make me repeat
Fine fine you are sure arrogant for your age Well that s expected from the r ch
I can't tell your age by your face though
Fine boss Don't forget the transfer the money
As expected seeing her beg for life against overwhelming powers and violence wasn't very pleasing but at least my hatred was resolved somewhat
Of course but only when you bring me the tape
In fact what I did to her was very unfair
But it was the reality
Perhaps she acknowledged that she did provoke me She didn't report me to the police and requested transfer to another university
Lunky for her because I didn't feel like chasing her

Even after that, I still think she was an important part of my memories
Perhaps I was a human being in love that I hate so much for that period
But love in memories means nothing
It's not present
And you don't know how it could have ended
And then I wanted to see.
A human being... A being that was not bound to a gender ...
and possesses powers that one could only read from sci-fi and fiction books ...
A being that would stand on others ...

Result of my experiment
Result of what I've dreamed
The result is this ?
Yes..., you are only an experiment., not my dream.
Kitty 101
The experiment of failture .
www.jaimes.com

It s because of me Because I said so !
How idiotic am I for being jealous of such a relationship ...
I am still envious of their relationship ...
Gal ...

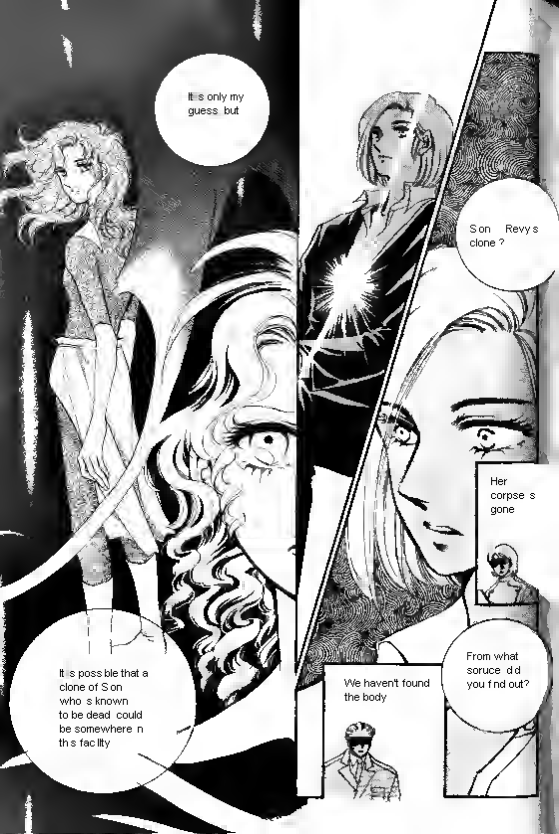
I wanted a connect on
But I don't know
Her behav our destroyes my fantasy about Ga
Why do I feel so suffocated
I feel like an idot for trust ng my connect on to Gai who I don't even know well
As f it is n ght out there but it s day here due to holo graph c
A connect on like umb l cal cord a connect on that s al ve and breath ng
Why s what Mars did gett ng on my nerve th s much ?
As f there s no truth
A reason to live on ...
Suffocat on caused by not understand ng what I really want
Perhaps, I've been seeing him as such ...
it s like I am n fog I feel like I am so close to the truth I seek but I can't quite catch it

Mars surgery was very successful
But it s too early to transfer her So I w ll rema n here
Isha and Jean w ll go back
Yes
No! I am not leav ng Mars alone!
There were too many guards I couldn't f nd Son
I know how you feel But you don't have to
Don't worry I w ll go back w th her as soon as poss ble
Are you sure Dr Troll would let her go that eas ly ?
That s why I am rema n ng here
I am not sat sf ed w th your solut on

www.jaimes.com
Well well
It is good to have you back as her friend. But aren't you going a little over your head?
I have the right
And it's my responsibility as well. You can't deny that
Fine. Jean will remain
Sure
Wait Isha. Why don't you remain?
Isha when Bezel comes go back with him
Aren't you worried?

I am worr ed but there s noth ng I can do here
Jean s act ng we rd
Come on Reman
I am not comfortable be ng left alone here
F ne I Isha w ll rema n
And Jean I need to talk to you
Yes
Jean
You weren't act ng l ke yourself I suppose you have someth ng to nform me
What s it Jean ?

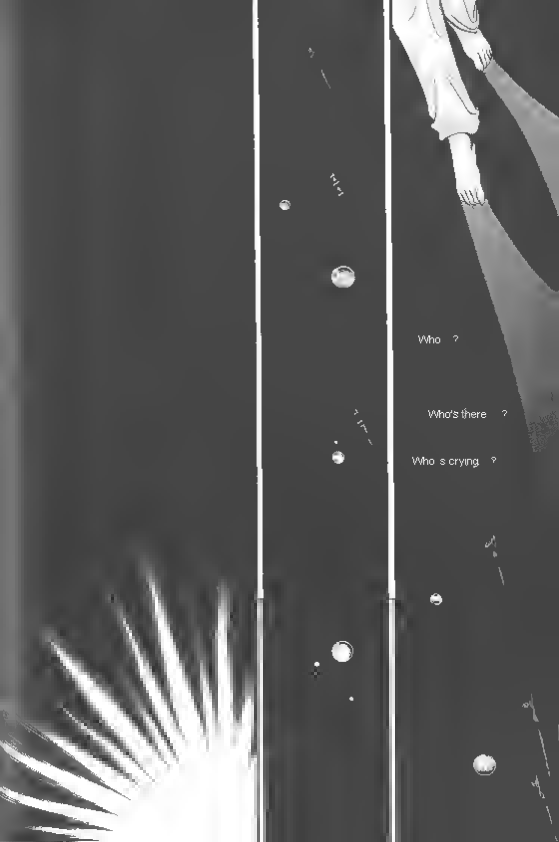
I am not ready to tell
Can you g ve me some t me?
I am surpr sed Jean
You are expect ng me to g ve you more t me ?
Of course you are the adm ral
I am just h red by you
I guess I keep forgett ng what post on I am n
Sure. I w ll tell you



It is only my guess but
It is possible that a clone of Son who is known to be dead could be somewhere in this facility
Son Revy's clone ?
Her corpse is gone
We haven't found the body
From what soruce did you find out?

When I was acting as a bodyguard for a leader of a sec I was faced wth enemy espers I bele ve I saw someone who was s m lar to S on
That s what my guess s based on
S m lar
I do hope that it was just a s m lar look ng person
But truth s always meaner than one expects
I d d not feel happy for see ng my lost fr end That was truth I faced

Even when
I m ssed her so
much that I saw
her n my dreams
constantly



Who ?
Who's there ?
Who s crying ?

What s wrong?
Why are you
cry ng ?
sob
My fr end
My fr end
left me
here
That s bad
Where s
your fr end ?

You are late Mars

2

(Sound of heart)

Ahah

a surgery on me?
I can feel my arm
I can even more my
f ngers
That means quite a
amount of t me
passed
How many days ?

Is this ... a dream ?
Is th s continuance of my dream ?
Am I dreamng the most real st c dream ever ?
